PRODUCT DETAILS

- Interfaces Between [TECHSPEC Optical Cage System](#) and Other Cage Systems
 - Adapts 30mm Rod Spacing to TECHSPEC Cage System's 38mm Bolt Circle
 - 32mm Inner Diameter
- The TECHSPEC® Cage System Adapter Plate is designed to easily interface between [TECHSPEC Optical Cage System components](#) and other cage systems. The TECHSPEC Cage System Adapter Plate uses four counterbore holes at 30mm spacing to mount to the end of other cage systems' tapped rods. A TECHSPEC Cage System standard cage plate can then be attached to the TECHSPEC Cage System Adapter Plate using eight M3 tapped holes. A set of 4-40 cap screws are included.
