Product Details

- Hands-On Educational Kit for Teaching Optics and Physics
- Engages Students with Light, Color, And Polarization Experiments

- Includes Reusable Demo Supplies Plus 25 Student Take-Home Packets
- Portable Suitcase with Room to Customize Your Materials

The Optics Suitcase Demo Kit is an interactive educational kit designed to spark students' curiosity about light, color, and the science behind everyday technology. This portable demonstration kit includes reusable supplies and 3 sets of 25 take-home packets, making it easy to present hands-on experiments that reveal the secrets of optics and physics. From heat pads and diffraction gratings to polarizers and liquid crystals, each demo shows how science and engineering improve our lives. Ideal for classroom visits, the Optics Suitcase Demo Kit supports engaging 45-minute lessons that encourage students to explore STEM careers. Inspire the next generation of engineers, scientists, and inventors — one experiment at a time.
