## Product Details

- Ideal Starting Point for New Labs
- 255 Individual Parts Included
- Optics, Optomechanics, Cleaning, Tools, and More
- English and Metric Based Mounting Versions Available

Lab Starter Kits are ideal for stocking a brand new lab. They feature essential products useful for any lab, from optics to detectors to cleaning and tools. Included in the kits are a range of lenses, filters, and prisms suited primarily for the visible spectrum. Lab Starter Kits also come with two light sources, a white LED, and a 640nm Coherent High Performance Stingray Laser Diode module. English and Metric mounting versions are available, with optomechanics and tools compatible with the included optics.
